THE STAR-SPANGLED BANNER

*O say can you see,
—by the dawn's early light,
What so proudly we hail'd
at the twilight's last gleaming?
Whose broad stripes and bright stars,
thro' the perilous fight,
O'er the ramparts we watch'd,
were so gallantly streaming?
And the rockets' red glare,
the bombs bursting in air,
Gave proof thro' the night
—that our flag was still there.
O say does that Star-Spangled Banner yet wave
O'er the land of the free
and the home of the brave?*

MARYLAND ALMA MATER

*Hail! Alma Mater!
Hail to thee, Maryland!
Steadfast in loyalty
For thee we stand.
Love for the Black and Gold,
Deep in our hearts we hold,
Singing, thy praise forever,
Throughout the land.*

Academic Degrees

REFERENCE: *Academic Degrees*, Office of Education, U. S. Department of Health, Education and Welfare, 1960.

A degree is awarded for the successful completion of a course of study. There are more than 1,600 different academic degrees currently conferred by American colleges and universities.

The first known degree was a doctorate conferred by the University of Bologna in the middle of the 12th Century. Originally, the doctor's and master's degrees were used interchangeably, each indicating that the holder was qualified to give instruction to students. The bachelor's or baccalaureate degree indicated only entrance upon a course of study preparatory to the doctorate or mastership. Gradually, however, the bachelor's degree came to mean successful completion of one level of study preparatory to the higher degrees.

From the continent, the use of academic degrees spread to English universities. Harvard University, William and Mary, and Yale followed the British pattern in the New World.

THE BACHELOR'S * DEGREE

The bachelor's degree represents completion of a four-year course of study of collegiate grade and is the oldest academic degree used by American institutions of higher learning. The degree Bachelor of Arts was first conferred in America in 1642 on nine young men, comprising the first graduating class of Harvard College. Yale conferred its first Bachelor of Arts in 1702; Princeton in 1748; William and Mary in 1753; Pennsylvania in 1757; and Columbia in 1758.

The degree, Bachelor of Science, was awarded to four graduating members of the class of 1851 of Harvard University, probably the first to receive this degree from any institution. From 1851 to 1905, the degree was conferred only upon students registered in the Lawrence Scientific School; after 1905, on students of Harvard, also.

Almost 490,000 bachelor degrees will be granted in 1964 by American colleges and universities.

One of the most striking features about the bachelor's degree is the great proliferation of some of its simple types. There are records of 27 varieties of Bachelor of Music, 108 varieties of Bachelor of Arts, and 426 varieties of Bachelor of Science.

THE MASTER'S DEGREE

The master's degree is an academic honor conferred upon students who have successfully completed one or two years' work in advance of the baccalaureate. A thesis and an oral examination are usually required. The word "magister" connected with a qualifying phrase, was used among the Romans as a title of honor; but its present meaning must be traced to the time of the establishment of the oldest universities.

* Sometimes designated as the baccalaureate degree, from the Latin *baccalaureus* from *baccalaris* "under the influence of" and *laurus* "laurel" used as a designation of honor, distinction or fame.

Regularly organized faculties were not then known as they now exist in the universities. The whole circle of academic activity was limited to seven liberal arts, and those who received public honors on the completion of their course of studies, for their diligence and knowledge, and had already received the degree of baccalaureus (bachelor) were called magistri artium (masters of the liberal arts).

The earned master's degree was first awarded in America by Harvard University in 1869. Currently, about 92,400 such degrees are being conferred in 1964.

*THE DOCTOR'S * DEGREE*

This is a term meaning teacher, or instructor, applied by ancient Romans to those who delivered public lectures on philosophical subjects. In the Middle Ages, from the 12th century, it came into use as a title of honor borne by men of great learning. It was first made an academic title at the University of Bologna, in Italy, which received from the Emperor the right of appointing doctores legum (doctor of laws). The University of Paris followed in 1145. Soon after, the popes granted the universities the right of appointing doctores canonum et decretalium (teachers of the canon law); and when the study of the civil law came to be combined with that of the canon law, the title was changed to doctor utriusque juris (teacher of both laws). The faculties of theology and medicine followed that of law in conferring this title.

The doctorate in philosophy and science, and occasionally in theology and law, is given beyond the baccalaureate degree, and requires two to five years, the writing of a thesis, and the passing of written and oral examinations.

The doctor's degree represents the most advanced earned degree conferred by American institutions. There are two distinct types: the professional or practitioners degree, and the research degree. The first type represents advanced training for the practice of various professions, principally: Doctor of Medicine, Doctor of Dental Science, Doctor of Veterinary Medicine and Doctor of Pharmacy. These degrees carry no implication of original research and are classified by the U. S. Office of Education, with bachelor's degrees, as the first professional degrees.

The second type of doctor's degree is classified as research doctorates representing prolonged periods of advanced study usually accompanied by a dissertation which is designed to be a substantial contribution to existing knowledge on the subject. The most important of these, the Doctor of Philosophy, no longer has any implication of philosophy for its holder, but represents advanced research in any of the major fields of knowledge. It was first awarded in the United States by Yale University in 1861.

Approximately 15,000 doctor's degrees will be awarded by American colleges in 1964.

* The *Oxford English Dictionary* defines a doctor, in the academic sense as, "One, who in any faculty or branch of learning, has attained to the highest degree conferred by a university."

The Academic Costume

The black caps and gowns worn by the students and faculty in the academic procession are of ancient origin. They have been the traditional costume of the scholar since medieval times and probably represent an adaptation of the ecclesiastical dress since many of the scholars of that period were members of monastic orders.

An intercollegiate commission in 1893 drafted a uniform code for costumes which has since been adopted by the majority of colleges and universities in the United States. Each of the three academic degrees—bachelor, master, and doctor—has its own distinctive gown and hood. The bachelor's gown is distinguished by its long pointed sleeve. The master's gown has a longer, narrow, closed sleeve extending below the knee; the arm is passed through a slit at the elbow. In contrast the doctor's gown has a full bell-shaped sleeve with three bars of velvet. The opening of this gown is faced with wide velvet bands. The velvet trim may be black or of a color indicating the general field of learning of the wearer, for example, blue for philosophy, green for medicine, purple for law.

The most colorful and distinctive item of the academic costume is the hood which passes around the neck and extends down the back. The doctor's is the largest of the hoods and the bachelor's the smallest. The bachelor's hood is often omitted. The color of the velvet edging indicates the field of learning. Below is given a list of department or faculty colors.

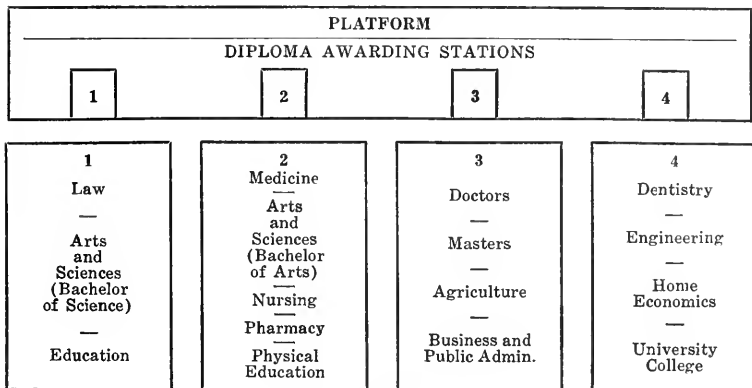

Agriculture	Maize	Music	Pink
Arts, Letters, Humanities	White	Nursing	Apricot
Business Administration,		Oratory	Silver Gray
Commercial Science	Drab	Pharmacy	Olive
Dentistry	Lilac	Philanthropy	Rose
Economics	Copper	Philosophy	Blue
Education, Pedagogy	Light Blue	Public Health	Salmon
Engineering	Orange	Physical Education	Sage Green
Fine Arts, Architecture	Brown	Science	Golden Yellow
Forestry	Russet	Social Service	Citron
Humanics	Dark Crimson	Surgical Chiroptody	Nile Green
Laws	Purple	Theology and Divinity	Scarlet
Library Science	Lemon	Veterinary Science	Gray
Medicine	Green		

The colors of the silk lining exposed in the center of the hood are those of the college or university which conferred the degree.

The cap or "mortar board" is uniform in design for all degrees. The tassel may be either black or the color of the field of learning. The tassel of the doctor's cap may be gold.

Certain institutions in this country and abroad have academic costumes of distinctive color and design.
